About TAT

TAT is a voluntary, an association, not for profit making and membership based association which started operation in Tanzania since 2015.

TAT aims and committed to serve the interests of transporters, truck owners and the whole transportation industry in Tanzania. It is desirous to work with the Government and its agencies, the private companies, the communities and other stakeholders with similar objectives within and outside Tanzania.

The members of TAT establish this constitution to provide for right and duties of members, key governance structure, roles and responsibilities and matters related to management of this association.

Mission & Vision

Vision

To create the most efficient and reliable transportation sector in the sub-sahara Africa.

Mission

To create the most efficient and reliable transportation sector in the sub-sahara Africa.

Objectives

Objectives of the Association

To achieve operational competitiveness for the transporters

To develop a strong membership base that will be the preferred organization for cargo consignors and consignees and authorities involved in supply chain logistics.

To carry out activities of advocacy in order to influence the development of policy, regulatory and administrative frameworks that will facilitate competitive logistics for the Tanzania transport sectors.

To work as a bridge between the Government and its agencies and members of the Association.

To carry out research activities to provide qualitative and quantitative data in the transportation sector for evidence based advocacy.

To represent the interest of its members in various local and international platforms.

To carry out any other activity for furtherance of objectives of the association and its members.

Association Goals

To have a streamlined road transportation networking within the country and across borders in the most efficiently administered fleets in the region.

To achieve this following are envisaged:

To have conducive and sustainable friendly policy regulations that will make the road transport sub sector thrive.

To ensure transporters are exposed to the most up-date modern technologies in fleet management.

To influence decisions that will ensure continued growth of the sub sector on economic catalyst to all other sectors.

To see to it that through improved operational efficiencies the road transport sub sector contributes to poverty reduction in-puts, materials and consumables.

Core Values

The core value of the association shall be, inter alia;

Integrity

Transparency

Efficiency

Accountability

Professionalism

Collective responsibility.
